Telecommunications, Network, and Equipment Sector Specific Scoring Sheet

Environmental Reporting and Performance

Qualitative Data *1 point if there is a mention of the topic;
2 points if there is a discussion a program/policy the company uses to implement the program.
Add one point if there is a discussion on the benefits or advantages from the program;
Add one point if the program is continuously being monitored or improved by the company;
Add one point if the company is a leader or role model as evidenced by external recognition or awards.*

Materials usage		Page	Score
1	Life Cycle Analysis (LCA)	Life Cycle Analysis (LCA) is a formal procedure that examines the environmental aspects and impacts of a process or product from "cradle to grave". To get credit here, it must be referred to as life cycle analyses or planning.	

Quantitative Data *1 point if there is a mention of the topic;
2 points if there is a discussion of the topic that includes numerical data.
Add one point if historical data are presented;
Add one point if there is a positive data trend;
Add one point if data are better than peer average, if the company is clearly taking a leadership position for the sector, or if data are at maximum performance (e.g. 100% recycling rate, 0 emissions, 0 injuries).*

Emissions to air		Page	Score
2	Carbon dioxide (CO2)	CO2 emissions resulting from all company operations. For energy and utility sector, covers exploration and production, and emissions in general.
